

ONE HOUR F. A. M. CHAMPIONSHIP AWARDED TO THE ARIZONA STATE FAIR

MOST IMPORTANT MOTORCYCLE RACE WILL DRAW FAST RIDERS

Many Cities Bid for the Professional Championship Event, but Dr. Boido Secures Contest from the Competition Committee

Phoenix takes first rank among American cities holding motorcycle races this fall, through the winning fight Dr. L. Boido has just concluded with the competition committee of the Federation of American Motorcyclists.

The National F. A. M. Hour Championship for professionals is awarded to the Phoenix State fair, and with it will come much motorcycle speed as even this thoroughly sporty town has never seen.

The announcement that the championship had been awarded to Phoenix came in the form of a letter from Competition Chairman John L. Donovan yesterday, in which he says:

"This letter is official notice that you have been awarded the One Hour National Professional Championship to be held in Arizona on November 13" (the opening day).

The Arizona championship, consisting of a fifteen-mile event for Arizona riders alone, will be another big item on the program of the first day of the fair.

Two hour-races have been held in Phoenix and both have been great successes. For the national championship the cream of the talent will be sent here by the factories, and there will be more teaming than has ever been seen on a local track. A national championship never falls to the lot of a city more than once or twice in a decade, and in securing the biggest race event the 100-mile, on the F. A. M. program, Dr. Boido had to buck the demands of such cities as Fresno, Sacramento and others.

De La Huerta Wires. While Dr. Boido and Secretary Tom Shaughnessy were making up a letter applying for the sanction and transmitting fees to the F. A. M. for the hour race, a wire was received from Adolpho de la Huerta, civil governor of Sonora, repeating his authorization for an international motorcycle road race from Hermosilla to Phoenix on November 9 and 10.

So, sanction was applied for this event, and the first international chugbike contest became more and more like a reality. A good deal of support is going to be lent to the motorcycle road race on account of

its political effect. There are many who believe with Dr. Boido and the fair commission, that no more wholesome way of showing international amity, can be devised, than to enter into a sports contest of this sort.

DE PALMA PROVES GOODYEAR TIRES

The stamina of Goodyear Cord Tires was again forcefully shown at the Chicago speedway Grand Prix classic, last week, when Ralph De Palma, the world-famed French driver, piloting one of the new Packard racing cars, Goodyear equipped, covered an exhibition ten miles in 5 minutes, 43 seconds, an average speed of 105 miles per hour.

In the Grand Prix race De Palma was forced to retire early, while leading the field, having broken a connecting rod on the third lap. Association rules did not permit him to re-enter the race, as the required five laps had not been covered.

But just to prove that, barring accidents, he was the same master driver as of yore, he circled the 2-mile track five times at the rate of 105 miles per hour, 5 miles faster than the time made in the Grand Prix race. Goodyear Cord Tires hold the world's fastest non-stop record. In the most successful speedway meet ever held in the Northwest, at Tacoma, Washington, on August 6, Pete Henderson, in a Maxwell car, established a non-stop record of 300 miles at the rate of 84 1/2 miles per hour. When it is taken into consideration that a tire, after a ten-mile grind at such terrific speed, becomes so heated that the hand cannot be held on it, the wonderful performance of the Goodyear Tires in this 300-mile non-stop run can be appreciated.

For heat and rubber are natural enemies. It was not until Charles Goodyear discovered a vulcanization process whereby rubber was rendered immune from the effects of ordinary heat, that its use became practical. So that success in building a tire that will withstand such terrific grinds is contingent upon the heat-resisting properties built into it. That Goodyear has solved this problem is evident from the remarkable performances of Goodyear Cord Tires on the race track this season.

Joe Bush Holds Indians Hitless; Wins in Classy Style

HE SAYS HE CAN REGAIN HIS TITLE

Abe Attell.

Abe Attell has recently offered to lick the winner of the approaching Kilbane-Chaney match and win back his featherweight title. Abe says that he knows he can regain his pristine form and if there's to be disputes about the king of the class he should be given a look-in.

SEVERED WILL BE A HERO

When the honor roll of American league ball players is made up after the race has ended this year the name of Hank Severed will be found leading in his department if the critics give credit for real service rendered. This modest young man has been a big outstanding figure in the recent sensational advance of the Browns. Fielder Jones could not see him early in the season, but he is batting .25 and he always makes 'em count. He may not be spectacular in his work, but if results count—well, just follow the record of the Browns since Severed has been the daily backstop. Bob Hedges paid high for him and he's making back for Phil Ball all that he cost.

ONLY ONE MAN SEES FIRST IN BUSH TRIUMPH

[Republican A. P. Leased Wire] PHILADELPHIA, Aug. 26.—Joe Bush entered the hall of fame for pitchers when he shut out Cleveland and did not allow his opponents a hit today. Only one of the visiting players reached first base. This was Graney, who in the first inning drew a base on balls. Bush struck out seven batters, eight went out on grounders, eleven were retired on fair flies and one on a foul fly.

When Graney ended the game by putting up a fly to McInnis, after Neil and Coleman had fanned, the crowd broke into the field to congratulate Bush, and the latter was so excited that he pulled off his cap and joined in the cheering. Score:
